The main conclusions of CoC15

- CoC15 **NOTED** a marginal improvement in the levels of compliance by some CPCs in 2017
- CoC15 **NOTED** the lack of completeness of data/information sets:
 - Impact on the work of the Scientific Committee *and its subsidiary bodies (WPs)*
 - Ability of CoC to fully assess the level of compliance of Members and Cooperating Non-Contracting Parties (CPCs) with *their obligations* (CMMs)
 - The CoC is concerned about the persistent low level of compliance from many CPCs regarding the submission of size frequency data of one fish per metric ton
 - The CoC is concerned about late submissions of mandatory reports and its impact on availability of meeting documents

The main conclusions of CoC15_(cont'd)

- The CoC **ENCOURAGED** CPCs to continue to increase their efforts to comply with the requirements of Resolution 17/05 for data on sharks, as this is a measure with one of the lowest levels of compliance
- The CoC **RECOMMENDED** that the Secretariat provide a list of CPCs not meeting the reporting requirements for nominal catch per species and gears for future meetings.
 - Resolution 16/06 – Provision of nominal catch
 - Distribution of IOTC Circulars to concerned staff
- CoC recommended and Commission agreed for a further review of the Compliance Report for Indonesia – IOTC-2018-CoC15-08
- Resulted in a revised Compliance Report for Indonesia – IOTC-2018-CoC15-08 Rev1

Trends in reporting obligations

Year	C	P/C	N/C	N/A	Total Requirements (Indonesia)
2010	6	16	24	9	46
2011	3	15	27	10	45
2012	24	18	9	13	51
2013	30	18	18	14	66
2014	38	17	6	18	61
2015	39	15	11	16	65
2016	46	7	15	17	68
2017	46	11	6	21	63

Trends in compliance levels with the different fisheries management tools - Commission as a whole.

What are the next steps?

- Develop a national plan of action for meeting Indonesia's obligations to submit:
 - Nominal catch data
 - Catch & effort data
 - Size frequency data
 - Attain the 5% observer coverage by gear type
 - Timely submission of complete observer reports
- Push through legislation to ban finning of sharks
- Develop interagency collaboration where required, e.g. *on market related measures*
